Promoting patient trust, commitment and confidence

Glimpses & Probes Series

An innovative approach to integrated Patient & Clinician Education

The 'GLIMPSES' Series

Designed as a stepped programme, 'Glimpses', graphically captures the essence of human cell function as a visual foundation for patient education.

The 'PROBES' Series

Following the 'Glimpses' series, 'Probes' provides you, the clinician with innovative clinical tools to implement Nature-based pathways to health.

Establishing YOU as a Nature-focused health authority
