

LIVE SEMINAR INVITATION

The Sensitive Gut:

Identifying key drivers & implementing practical solutions

Herbs of Gold extends a warm invitation for you to join us for our FREE live seminar

The Sensitive Gut: Identifying key drivers & implementing practical solutions

Digestive health is seen as increasingly important in overall health, with the digestive process providing the building blocks for whole body wellness. Despite its importance to overall health, 50% of Australians experience gut problems, with one in seven experiencing distressing gut health symptoms¹.

In this seminar, we'll explore the role of the gut as the seat of all health, and the impact a sensitive gut can have on individuals. We'll look at risk factors for gut disturbance and common gastrointestinal complaints including abdominal pain and discomfort, bloating, nausea and irregular bowel movements that can be a sign of underlying dysfunction, with a lens to implementing practical solutions to improve gut function and overall vitality in your customers.

In this seminar we'll explore:

- Key drivers of poor gastrointestinal health
- Systemic effects of gastrointestinal imbalance
 - Common gastrointestinal symptoms
- Practical solutions for optimal gut health

Products featured in this seminar include:

Gut Care

Digest-Zymes

Probiotic 60 Billion

Probiotic + SB

DINNER
PROVIDED

GIVE-AWAY
BAGS
